PROFESSIONAL EXPERIENCES

MERN Stack Developer|Gamicacloud.com
AsyncWorking

June2022–Present
Faisalabad, Pakistan

Mern Stack: React (Next.js), Redux, Redux toolkit, Node.js , MongoDB, Express js
RESTful APIs, Tailwind CSS, Chakra ,Bootstrap, JQuery,
Intensive development experience on a React js and next js
including web apps for clients and admin portals featured with Node.js backend.

Frontend:

- Developed responsive marketing pages with Next.js 13, improving SEO scores, according to Google Lighthouse.
- Developed and maintained the reusable components for front-end pages using React, Tailwind and Chakra UI.
- Wrote unit tests with Jest and React Testing Library and reaching over 90% coverage. Implemented ESLint, husky, and Prettier to ensure consistent code formatting and enhance commit quality.

Backend:

- Connected the application to the MongoDB database using the Mongoose and constructed back-end RESTful APIs with schema, model, controller, and service.

GamicaCloud Institute :

React, Redux, Node.js (Express.js), material UI, styled- Chokara, Rest-API, Serverless components.

Frontend:

- Developed responsive front-end pages using React, styled with material UI, ensuring optimal functionality and user experience.
- Built the products page using Sanity CMS with UI designers and other engineers, providing sales personnel with the capability to upload, maintain, and manage information related to courses and educational products.
- Developed form features for the Sign-up page, Sign-in page, Profile page, and Add-New customer page utilizing React Hooks, Axios, and Formik.
- Managed global state across multiple components with Redux to avoid problems like props drilling and synchronized user state on the Profile page and navbar.
- Crafted multiple UI components with styled-components to ensure UI consistency and minimize code duplication.

Teamwork:

- Implemented code review, debugged code, and provided revision suggestions.
- Regularly organized group learning and knowledge sharing activities within the team.
